龙年

THE YEAR OF THE DRAGON

Dragons are very strong characters with lots of personality, full of life and enthusiasm. These proud people are highly intelligent and confident. They are brave, passionate, sincere, and usually have something interesting to say, which makes them very popular. Others often value their opinion, even though they can sometimes be controversial. Beware though, Dragons are quick to criticise when displeased and not particularly tactful or diplomatic, so can have a sharp tongue.

Determined and ambitious, Dragons succeed at almost anything. They love a challenge, are willing to take risks, and work long hours to reach their goals, so they often reach the top of their profession. They are strong leaders who do well when they have the freedom to put their own ideas into practice, however, they may sometimes appear aggressive, domineering, or controlling. Dragons may be impulsive and don't always think things through before acting. They are often impatient and can get annoyed at the slightest of delays.

Independence is very important to Dragons and some prefer to be single, but they are usually surrounded by admirers as they are charismatic, chivalrous and considerate.
