## THE YEAR OF THE SNAKE

**WEDNESDAY**  
**29TH JANUARY 2025**

In Chinese astrology there are 12 zodiac signs but each one is assigned to a full year rather than just one month, creating a twelve year cycle of signs: rat, ox, tiger, rabbit, dragon, snake, horse, goat, monkey, rooster, dog, and pig

Snakes are wise, intelligent, perceptive, and often deep thinkers. They are graceful, stylish, and may have a mysterious air about them which makes them very attractive to others. Snakes often have many admirers. They are quite cautious and private people, but very responsible and intuitive, and they make devoted partners.

Snakes hate to fail and are single minded in achieving their goals, but they may have trouble finding a job that they really like. However, once they find a job they enjoy, they are thorough and have the determination to follow through. Snakes are cautious and sceptical, and prefer to work alone. They are materialistic and love to have nice things, but they don't really enjoy shopping.
